# 012017 MARKET INDEX 

## GLOBAL <br> PERSPECTIVE

In the first of our quarterly editions of the YachtWorld Market Index in 2017, we report that sales volumes made strong gains both in Europe and the United States. And on a percentage basis, the total price paid for the boats rose by even more.

As always, there's nuance to the numbers, and a good example is found in our report on the UK market, which reported four straight quarters of growth. The data show increases in both power and sail segments, yet by length, not all were equal. Interviews we conducted with brokers also described the style and brands of boats that sold best.

Speaking of brands, once again, we report on the top 10 brands in the top 16 classes from the U.S. and Europe, focusing on sales in the first quarter only. Have a look at the classes and brands you know best, and let us know if there are any surprises.

## US: Q 1 <br> MARKET REVIEW

Many brokers were pleased with their sales results in the first quarter of 2017. The volume of U.S. brokerage sales increased moderately in January and February compared to 2016, and despite a slight downturn in March, total volume for the three months was 3 percent higher.

The total value of sales for the first quarter of 2017 increased every month and totaled $\$ 904$ million, up $\$ 702$ million, according to broker reports in SoldBoats, the proprietary database of YachtWorld member brokerages.

The strongest volume gains for the quarter were in the 26to 35 -foot size range, with 2,118 boats sold, up from 1,942. Value increases were registered in nearly all size ranges, and while the superyacht segment of boats 80 feet and longer gained the most (up by $\$ 132$ million), several other size ranges showed increases of $\$ 20$ million or more.

Powerboat sales accelerated by 3 percent, with 4,676 boats sold, while sailboat sales of 1,033 boats were even with 2016.

Making strong gains were center consoles, power cruisers and saltwater fishing boats. Declining sales occurred among bowriders, sportfishing boats, and cuddy cabins.

Four of six size ranges made gains, with two of three highvolume segments making solid progress. As mentioned, boats 26 to 35 feet gained the most-176 boats-and boats 36 to 45 feet increased by 36 boats. The two sizes with lower sales for the quarter were boats under 26 feet and boats 56 to 79 feet.

## EU: Q1

MARKET REVIEW

Brokerage boat sales continued to advance in Europe during the first quarter of 2017, with 1,816 boats sold, an 11-percent increase over 2016. The total price paid for the boats sold increased by even more, from €329 to €399 million, according to YachtWorld member brokerages reporting in SoldBoat, their proprietary database.

The powerboat market made strong gains during the quarter, with 962 boats changing hands, a 23-percent rise from the 782 sold in 2016. Powerboat values increased by 31 percent, although we should point out that the alwaysvolatile superyacht market carried much of that gain due to an increased average sale price climbing from $€ 3.1$ million to €4.2 million.

After a slow start, the market for sailing yachts picked up in March and was nearly level for the quarter at 854 boats sold, off 2016's total by 7 boats. Average final prices achieved were down by 8 percent, however, indicating some weakness in the market segment.

By length, the best growth in sales volume was achieved among small boats, with 323 boats sold, up from 267 a year earlier. The total value of boats sold in this bracket made even greater gains, up from $€ 5.7$ million to $€ 8.9$ million

A strong combination of volume and value gains was also made among boats 46 to 55 feet, with 218 boats sold for $€ 59.8$ million. This represented increases of 14 percent in volume and 26 percent in value-which netted an 11-percent gain in average sale price.

# UK: Q1 <br> MARKET ANALYSIS 

One of the reasons that YachtWorld member brokers in Europe have generally reported sales growth in the last year is that brokers in the UK were selling more boats.

During the period April 2016 to March 2017, unit sales volume in the UK rose 14 percent, with positive results reported in all four quarters, according to SoldBoats, the brokers' proprietary database.

Powerboat sales rose 13 percent during the last year, with 2,302 sold, and sailing yacht sales climbed to 1,591, a 15 -percent gain. The total price paid for the two types of boats increased by 21 percent and 35 percent, respectively, which moved the average value of all boats sold from $£ 52,035$ to $£ 57,362$, a 10 -percent lift.

According to Rhian Sewell, Group Brokerage Manager at Ancasta International Boat Sales, one factor fueling the market was the value of the British pound against the Euro, which for much of the period was low enough that British boats were attractively priced. About 20 percent of the boats sold by Ancasta went to buyers outside of the U.K.

Sewell told us that British sales would be higher but have been hindered by referenda and elections-the 2015 elections, the Scottish referendum, and Brexit. "Brexit killed the market for us in May and June," she said, "but it suddenly picked up in mid-July." She laid the blame on the vendors, saying every time an election comes along they decide to wait to sell, saying, "I'll just see what happens."

```
UK:Q1
MARKET ANALYSIS
```

The strength of the UK market in the last 12 months was among boats 36 to 55 feet, with 1,022 boats reported sold, up from 738 in the previous 12 months. Sales also increased by double-digit percentages among boats under 26 feet. Average prices increased in most size brackets, as well.

Popular powerboats were flybridge and sports cruisers, less than 10 years old, said Dominic Smulders of Thames Boat Sales. He also pointed to a "desperate shortage of good listings" for some of these style boats which, because of the Recession, were not built in quantity. One example he gave where there are more buyers than sellers was among under- $£ 30,000$ sports cruisers of the sort built by Regal and Bayliner.

Much less popular recently, Smulders said, were displacement and aft-cabin cruisers. He said newer buyers on the market are more interested in "a cockpit with a toilet" than boats with berths for cruising of any duration.

Smulders told us sales of Sealine were up and sales of Broom were down. Sewell pointed to rising powerboat sales for British brands Princess, Sunseeker, and Fairline, plus Prestige and Beneteau from across the Channel. The top sailing brands, she said, were Hanse, Jeanneau, Beneteau and Lagoon.

As we go to press with this Index, we note that UK sales volumes were down in March and April from 2016. Perhaps this is a new trend, but as Sewell suggests it may simply be a pause before the next election.

## TOP BRANDS \& CLASSES: <br> UNITED STATES

In the first quarter of 2017, Center Consoles out-sold Power Cruisers, which had been the top-sold class in the U.S. in 2016. According to YachtWorld member brokerages reporting to SoldBoats, their proprietary database, Saltwater Fishing boats were third most popular and Motoryachts were fourth.

Sea Ray, the perennial top-selling brand in the U.S., out-sold the next three brands combined and led the Power Cruiser, Motor Yacht, Express Cruiser and Bow Rider categories. Catalina, in second place, was the leading sailboat brand and top-selling Sail Cruiser.

Boston Whaler led the Center Console and Saltwater Fishing categories, with Grady-White and Pursuit close behind.

## TOP BRANDS \& CLASSES: <br> EUROPE

As in 2016, Sail Cruisers were the top-selling class in 2017's first quarter on the European brokerage market, according to YachtWorld member brokerages reporting in SoldBoats, their proprietary database. However, Bavaria model sail cruisers moved from third place in the category in 2016 to first, edging out Beneteau by one boat as the most-sold brand.

Overall, boats built by Jeanneau were the top sellers in Europe for the quarter, thanks to the brand's combined strength in sail and power. Beneteau, in second, and Bavaria, in third, are similarly diversified.

Princess was the top-selling powerboat brand, just ahead of Sunseeker. Notably, both were ranked behind Sealine and Fairline during 2016.
